re-imagined

a new approach to oral care

whole mouth health

As the gateway to your body, what you put in your mouth can impact your overall health and wellness.

Our products have been meticulously crafted by leading dentists, scientists, and medical experts to bring you the ULTIM8 oral care experience.

comprehensive system

An entire line of oral care products that work together to help you achieve your oral health goals.

highest quality ingredients

Our patented formulations feature the highest quality, safest, and most effective ingredients.

innovation

dentist-invented toothpastes with minerals, prebiotics and vitamins

- our patented liquid enamel technology contains nano-hydroxyapatite (mineral that constitutes over 90% of teeth)
- infused with vitamins K2 and D3
- supports the health of oral microbiome
- packed with prebiotics
- no artificial colors, flavors, preservatives, or sweeteners
- something for everyone -- 4 flavors, fluoride and non-fluoride option, specialties like prescription and ortho

mouthcare

balance the biome, don't burn it.

- no burning from harsh chemicals, alcohol, or essential oils**
- pH balancing/non-acidic
- supports the health of oral microbiome
- contains Hydroxamin (nano-hydroxyapatite, vitamin D3 and vitamin K2)
- no artificial colors, flavors, preservatives, or sweeteners
- fluoride and non-fluoride options

mouth spray to help restore normal pH levels

- for use between brushing; zaps away acid build-up (which can lead to cavities)
- freshens breath without essential oils**, artificial ingredients or alcohol
- supports health of oral microbiome
- alkaline pH of 8.5
- packed with prebiotics

expand your horizons

- *patented expanding technology removes 40% more plaque
- no petroleum-based wax; uses safe & natural beeswax
- no PTFE (Teflon®), PFAS, or PFOA (forever chemicals)
- multiple formats including flossers, dispensers, and ortho
- infused with Hydroxamin (nano-hydroxyapatite, vitamin D3 and vitamin K2)
- packed with prebiotics

*clinical study Genova University, Italy

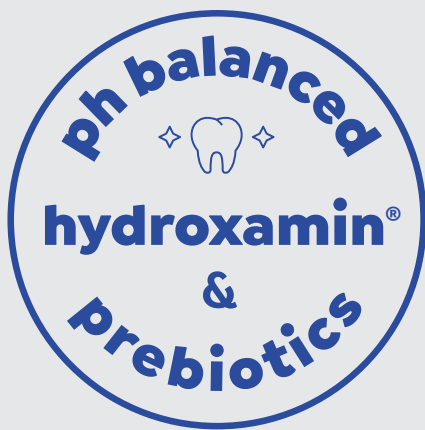

give your mouth the inside scoop

- triple-action tongue cleaner features a specially designed brush to reach hidden areas and the whole mouth
- studded scrubber for gentle exfoliations
- scraper to scoop out bad bacteria
- made with safe & non-toxic material supports health of oral microbiome

brace yourself for the first oral care system for orthodontics

unique formulation for orthodontics reduces risk of cavities and decalcification • floss with threaders and toothbrush heads with SuperBristles Ortho designed for cleaning around braces • brush heads cleans up to **60 times better than a manual brush**

pH balanced

Our toothpastes, MouthWashes, and MouthSpray help to reduce acid in the mouth which can lead to cavities.

prebiotics

Prebiotics like inulin help balance the oral microbiome by feeding good bacteria.

our ingredients

our patented formulations for MouthPaste, MouthSprays, and MouthWashes use the highest quality ingredients to ensure that every product delivers exceptional results.

nano-hydroxyapatite

This is a compound similar to the mineral component found in our teeth and bones. It is designed to support the remineralization and strengthening of tooth enamel. Additionally, nano-hydroxyapatite may help naturally whiten teeth and reduce sensitivity.

Regular use of products containing nano-hydroxyapatite can contribute to oral health.

vitamins K2 and D3

These vitamins help improve the absorption of the nano-hydroxyapatite into the cracks and crevices where it is needed most.

access SuperMouth's *complete oral care systems* curated by top dentists and medical experts. choose a one-time purchase or subscribe to ensure you never run out.

*In Vitro Test to Compare the Ability of Toothbrushes to Clean the Interproximal Regions of a Tooth Model. T. Badrock, G. Thomas & G. Withers. Intertek CRS Elm House, Hooton, UK (2024).

In vitro cleaning efficacy and resistance to insertion test of interdental brushes, Diana Wolff, Daniela Joerss, Paul Rau, C.E. Dorfer, Clin Oral Invest (2006), 10:297- Interdental cleaning helps remove debris and interproximal dental plaque, the plaque that collects between two teeth to reduce the likelihood of gum disease and tooth decay. Interproximal area is the area where the teeth meet.

**SuperMouth products do not contain essential oils as defined by the United States Food and Drug Agency.
